

# Nishant

Mobile Application Developer

For now I'm just a curious tech guy with good technical skills and great thinking ability. Adaptation of a new technology isn't a big deal for me.

## Experience (10 months) with Max vision solutions

- Amusermart (An e-commerce app integrated with opencart rest api)
- Kichimall (An e-commerce app integrated with woocommerce rest api of wp)
- In1mall (Same as kichimall with different look)
- GetLiveCoach WebApp (A platform for hire a coach, integrated with Laravel backend)
- GetLiveCoach mobile app
- Link Locality (I'm just maintaining it for a while and adding additional features)

## Other personal projects

### [DoneMySite](#) (Under development)

It's a freelancing platform to get hire a freelancer for some website development of maintenance work I'm Planning to use paypal or stripe for payment platforms.

### [ChatThings](#)

It's a social media application where users can Chat, make friends, listen same music simultaneously, Post, comments and react on post, share stories, play basic multiplayer games like KBC and tic-tac-toe

### [ResumeBuilder](#)

It's a react application for building your resume on the web, and generating a PDF of that resume. User can mention his photo, personal details, education details, skills and projects.

### [WebDraw](#)

It's a vue.js drawing application users can draw freehand, lines, and other geometrical shapes, can Save on browsers localStorage or generate a PDF of result or export a .drw file which can even Import on some other pc and that'll work fine. (.drw extension is stands for WebDraw file)

Education	Skills	
BCA - IGNOU Pursuing MCA	<ul style="list-style-type: none"><li>• Html (80%)</li><li>• Css (75%)</li><li>• JavaScript (85%)</li><li>• React.js (70%)</li><li>• Vue.js (75%)</li><li>• Angular (75%)</li><li>• Bootstrap &amp; MUI (60%)</li></ul>	<ul style="list-style-type: none"><li>• Python (80%)</li><li>• Django (65%)</li><li>• PHP (65%)</li><li>• Laravel (55%)</li><li>• Java (70%)</li><li>• MySQL (70%)</li><li>• Linux (60%)</li></ul>

I'm one of the best problem solvers. (I have HackerRank's [5th Star gold badge](#) In problem solving)
